

Australian Dyslexia Association (ADA)

MAY 2017 updates on the ADA Pre Assessment Screening Service:
The new ADA website is approaching soon.

How can I access the pre assessment screening service for the month of March?

The ADA pre assessment service is currently available for APRIL 2017 as a non member. The fee presently is \$120.00 under the existing website. If you would like to take this service up, please email ADA and request an invoice for a non member pre assessment. Please include, name for invoice, age of individual and your email please. ADA will then prepare this for you and email you. You can also request this via the **ADA text service 0410 850 185**

How is the pre assessment delivered (currently)?

Until the new website is up the pre assessment is delivered to you via email. It is prepared precisely for your child, teen or adult's age group. The pre assessment screening is aligned with research screening procedures. The ADA pre assessment is thorough, it is designed to collect pertinent information along with student input samples. The ADA pre assessment service is devised specially by the ADA and is based on an inclusionary researched based approach, it is NOT a commercially bought product. ADA will email the package to you so there is no need to make a face to face appointment.

Where do I presently post the completed pre assessment documents to?

ADA Head Office PO BOX 261, Varsity Lakes, 4227

Please note ADA is an Australian Registrable body with government (ASICS) and operates legally in every state of Australia. ADA office locations include Sydney and Melbourne.

How long do the results take once ADA receive them?

The ADA pre assessment documents are evaluated carefully by ADA trained and highly experienced ADA assessors. The evaluation generally takes around 3-7 working days however delays can occur when demand reaches a peak. Results will be emailed. You will receive a two page report with results of the ADA pre assessment screening. Additional relevant attachments are included for home and school.

How does the ADA pre assessment differ to a full assessment?

The ADA pre assessment screening is a valuable and highly recommended step in identifying dyslexia and or dysgraphia. The ADA pre assessment screening is a sensible step as it avoids unnecessary upfront full 'testing' or 'over testing' often associated with higher fees. Many schools, parents and adults can be identified and assisted at the ADA screening stage. The ADA pre assessment includes a clear outcome (2 page report) along with relevant fact sheets to assist all who take up the exclusive ADA screening service. It is service that can help **all** who struggle with aspects of language and literacy for various reasons.

Other useful information, the new ADA website will be here soon! Here is the new structure:

The ADA pre assessment screening service will be one fee for all: \$150.00

For those that wish to also take out membership with ADA, the fee will be for parents and adult membership will be: \$55.00

ADA Professional, School and Accredited (AMADA) Memberships applications:

Professional memberships (Educational and Allied professionals) fee will be on the new website

School memberships fee will be on the new website

AMADA membership (MSL recognition/accredited) will be on the new website

The ADA pre assessment service will be easily accessed online once the new ADA website is up.

Kind Regards, ADA TEAM
